

**ACCENT**<sup>®</sup>  
ALUMINIUM WINDOWS & DOORS

Life is about opening  
new doors and windows

Windows and doors are to your home  
what eyes are to your body:  
*the lens through which you see the world.*

## OUR HERITAGE

Discover the Evolution of Excellence  
with Accent Aluminium Windows & Doors

### Four Decades of Resilience & Innovation

Celebrating 40 years in business, Accent Aluminium Windows & Doors started as a spark of ambition and has transformed into a beacon of industry innovation and quality! From humble beginnings, this flourishing company was sculpted through the determination and grit of Basir Abbass, a resilient migrant who fled war-torn Afghanistan, enduring the struggles and embracing the opportunities of a new land. Basir, initially serving as the company's truck driver, now stands as the proud owner, leading a thriving business with a passionate team exceeding 80 staff members, marking Accent's massive growth trajectory and commitment to future-proofing the business in the 21st century!

### Pioneering Future Technologies

Accent Aluminium Windows & Doors is not just preserving traditions but is also embracing the future by considering the integration of advanced robotic automation and ERP systems. This progressive approach symbolises Accent's devotion to staying ahead, ensuring our products represent the pinnacle of design, functionality, and quality. Journey of Transformation! Basir's journey symbolises an inspiring journey, depicting the relentless pursuit of a dream amidst adversities. His story is woven into the very fabric of the company, rendering every window and door a testament to resilience, dedication, and triumphant success – all within the values and traditions of a family run business that 100% Australian run and owned.

1983 – 2023

Proudly celebrating 40 years  
serving the Australian community

### Quality That Speaks

Our company is not just about crafting aluminium windows and doors; it's about delivering excellence, building trust, and creating enduring relationships with our clients. We are driven by a fervent desire to exceed expectations and are continuously innovating to deliver products that resonate with superior quality and aesthetic appeal. Join us as we continue our illustrious journey, explore new horizons, and redefine standards in the aluminium windows and doors industry! Experience unparalleled quality, window design and innovation with Accent Aluminium Windows & Doors!

# AWARDS

We were proud to be a finalist in the 2019 Ethnic Business Awards.

Our Director, Basir Abbass, was one of four finalists and the first Afghan nominee for the prestigious Ethnic Business Awards held in October 2019.

Founded in 1988 by Joseph Assaf AO, the Ethnic Business Awards are Australia's longest running national business awards program, celebrating diversity and multiculturalism, and the achievements of migrants, who come to Australia with a "suitcase full of dreams"; and whose creation of new jobs, wealth and ideas, have contributed to cementing the harmony of multicultural Australia. Their ingenious and enterprising characters contribute greatly to the country's business and social landscape, and it is the goal of the Awards to celebrate their journey.

Out of 650 applicants, we believe Accent is a winner for being selected as a finalist, nomination itself is a humbling experience for Basir and accepted with gratitude.

Accent Aluminium Windows and Doors receiving "Finalists" award at the Ethnic Business Awards.

Left: Letter of congratulations from then Leader of the Opposition, Hon. Anthony Albanese MP.

Below: Prime Minister at the time, the Hon. Scott Morrison meets Accent's Director Basir Abbass at the Ethnic Business Awards.

# AS SEEN ON

Our products have been proudly featured on the following shows:

**Buying Blind** – Channel 9

**The Mentor** – Channel 7

**Selling Houses Australia** – Lifestyle Channel

**Deadline Design with Shaynna Blaze** – Lifestyle Channel

**Love It Or List It Australia** – Lifestyle Channel

**House Rules** – Channel 7

*"We were so over the moon with Dean and Accent. It was such an easy and positive process with the communication and of course quality of the product. They were very challenging windows and doors on the first season of Deadline Design and the results were fantastic. Accent has gone above and beyond through the whole series of Deadline Design and again on the Selling Houses Australia, Mount Macedon episode and I hope you reap the rewards. I look forward to working with you in the future."*

# HAWKESBURY

## Multi-Fold Door Range

Designed with large floor to ceiling applications in mind, the Hawkesbury Multi-Fold Door Range combine full sized commercial perimeter framing with specially designed commercial door stiles.

A functional alternative to traditional door units in commercial and residential applications, the Hawkesbury E2 and E3 door range removes the barriers to allow flow between indoor and outdoor living. Whether the doors are opened or securely fastened into place as sturdy impenetrable walls, the Accent Hawkesbury Door is the only choice.

SMOOTH, TROUBLE FREE OPERATION,  
WHILE KEEPING THE HARSH ELEMENTS OUT.

### Key Features

- Smooth top-rolling operation
- Weatherseal technology keeps wind, rain and cold air where it belongs
- The stabilising centre hinge controls door stile deflection and bowing on tall doors
- Surelock™ system allows for simple vertical height adjustment when needed
- Uncompromised security with flush bolts and proprietary door furniture
- Accepts from 6mm – 13.5mm single glazed and up to 28mm double glazed units, allowing the designer to achieve the most demanding thermal and acoustic specifications

# CARINYA CLASSIC

## Sliding & Stacking Doors

The Carinya Classic Sliding & Stacking Door is a product in the residential market having evolved out of a system designed for the high rise apartment market.

This commercial background means that besides a modern designer look, the Carinya Classic Sliding & Stacking Door is packed with a multitude of performance features, many of which are simply not available in competing products:

- Rather than unsightly exposed tracks found in most residential doors, Carinya has a complete optional range of threshold and jamb in-fills as well as end caps to conceal all cavities. This not only provides a superior quality, commercial grade finish but also minimises places for insects, dirt and grit to gather.
- An internally concealed weather flap also reduces air and water infiltration and minimises insect intrusion through the drain holes.
- All Carinya sliding & stacking doors feature a choice of sill configurations catering for every weather performance requirement, including a wheelchair accessible sill.
- There is also a range of attractive interlock options to meet a wide variety of wind load requirements.

## Applications

- New residential construction.
- Door replacement and renovation.
- Aged care & wheelchair requirements.
- Low-rise multi unit developments.

## Options

- A range of sill options available for increased structural, water performance and design flexibility.
- A range of interlocks complete with end caps for varying wind load requirements.

## Specifications

- Maximum Sash Height: 2700mm\*
- Maximum Sash Width: 1500mm\*
- Maximum Single Glazed Thickness: 10.5mm
- Maximum Double Glazed Thickness: 18mm
- Maximum Sash Weight: 160kg

\* Subject to site conditions

# FRENCH DOORS

## Hinged Door Range

The Swan Evo 45mm Commercial Door is a versatile door that is easy to fabricate and install and can be used in residential settings.

Suitable for a wide range of applications, the Swan Evo can be used in hinged, pivoted or sliding configurations, while also integrating seamlessly with our other framing systems.

Featuring a new and improved clamping spigot set for superior performance and easy fitment, integrated heal and toe block, the Swan Evo provides the ideal solution where superior operation and performance is required. Glazing could not be simpler with the colour coded wedges from standard systems being utilised to deal with the many diverse glass options.

A VERSATILE DOOR SOLUTION  
FOR A WIDE RANGE OF APPLICATIONS.

## Key Features

- Available in hinged, pivoted or sliding options
- Stronger sash through the use of custom designed clamping spigot set
- 19mm glazing pocket accepts up to 13.5mm single glazed
- Double glazing option accepts up to a 24mm IGU
- Colour coded glazing wedges for ease of identification
- Panel heights up to 3000mm subject to project requirements and site conditions
- Wide stiles/rails available
- Range of thresholds such as disabled ramp

Bi-fold doors  
proudly supplied and installed  
by Accent Aluminium Windows and Doors  
on episode 2 (Collingwood) of *Deadline Design*  
With Shayna Blaze, as seen on Foxtel's Lifestyle Channel.

Accent Aluminium Windows and Doors  
can also supply and install a range of  
feature entry doors.

# INVISI-GARD

316 Stainless Steel Security

## Wide Product Range

Invisi-Gard® Stainless Steel Screens have a wide range of products suitable for the following residential and commercial applications:

- Hinged Doors
- Sliding Doors
- Patio Enclosures
- Sliding Windows
- Security Screens
- Awning Windows
- Fixed Screens

## Hinged and sliding Invisigard

Invisi-Gard®, Australia's premier Stainless Steel Security brand from Accent, utilises materials of the highest quality ensuring security and great looks with low maintenance for many years. Invisi-Gard security screens don't compromise on the look or security of your home, so you don't have to either.

Invisi-Gard® is made from 316 marine grade stainless steel mesh and backed by a 15 year warranty. Using the unique, patented pressure retention and isolation method, you can rest assured that the stainless steel mesh will defy the most determined attack from both intruders and corrosion.

## Corrosion Prevention of Invisi-Gard's EGP

The construction of security screens requires stainless steel mesh to be attached to an aluminum frame, bringing two different metals together which can lead to corrosion.

To prevent this type of dissimilar metal corrosion, Invisi-Gard® have developed and patented a unique clamping system, called Extreme Grip Protection (EGP). This system cleverly captures the mesh within the frame using specially shaped co-extrusions of PVC. A PVC wedge is then used to apply uniform pressure around the frame which locks in the mesh.

The EGP system, used only by Invisi-Gard®, means the mesh is able to be locked into the frame without the uses of screws or mechanical fixing, and means the potentially harmful contact between the metals is avoided.

## Mesh Matters!

316 grade stainless steel offers superior corrosion resistance over 304 as it contains an additional substance, molybdenum, giving higher protection from corrosion, notably in marine environments.

In fact, 316 is regarded as the standard marine grade material for this very reason. In the case of window and door security screens, required to be exposed to the elements over long periods of time, it makes sense that corrosion resistance is a fundamental consideration.

A final key factor which distinguishes Invisi-Gard® products from the market, is that only the highest quality mesh is sourced which is consistently quality controlled and accredited under international standards.

# WINDOWS

We offer a complete range of residential and commercial windows.

Curtain wall proudly  
supplied and installed by  
Accent Aluminium Windows and Doors  
at a residential property in Malvern

# CARINYA PLUS SLIDING

## 65mm Sliding Window

The Carinya Plus 65mm Sliding Window has many visible advantages over alternative products in addition to its obvious aesthetic qualities. These include:

- The flexibility of Single and Double Glazing options, from 4mm to 10.38mm single glazing and 18mm double glazed units.
- The slimline handle design, mounted in an easily accessible position on the rear of the sliding sash, offers ease of use and minimizes obstruction of any views.
- To maximise the performance and life of your window, proprietary commercial rollers are used that have been tried and proven in commercial applications such as schools and offices. This ensure your windows will always be easy to open, even with large sashes and heavier glass options.
- There is a range of different screening options available from standard fly screens to Invisi-Gard Security Screens.
- Superior thermal and weather performance.
- The 65mm framing option offers a high end residential/semi-commercial look.

## Applications

- New residential construction.
- Window replacement and renovation.
- Low-rise building.

## Specifications

- Maximum Sash Height = 1.8m
- Maximum Sash Area Size = 1.8m<sup>2</sup>
- Max. Single glazed thickness = 10.5mm
- Double glazed thickness = 18mm IGU
- Maximum Sash weight = 50kg
- Maximum Fixed Sash = 80kg

\* Sizes will vary subject to site conditions and configurations.

# CARINYA PLUS AWNING

## 65mm Awning Window

Besides a modern designer look, the Carinya Plus 65mm Awning Window is packed with a multitude of performance features, many of which are simply not available in competing products.

- A 60mm bevelled edge sash to cater for Semi-Commercial/High End Residential Applications.
- The integrated hinge design is incorporated entirely within the frame to achieve the clean designer finish.
- Easily double glazed with a glass thickness of 18mm.
- All sashes feature an extremely strong moulded corner stake, combined with screw fixings to ensure we have a strong and durable sash.
- Features such as corner protectors on the sash separate Carinya Plus from other awnings on the market, whilst providing a practical and safe solution for your home.
- The chain winder is available in standard or restricted opening depending on the size and application of the sash. These chain winders have been tried and proven in commercial applications, such as schools and offices.
- There is a range of different screening options available from standard fly screens to Invisi-Gard Security Screens.

## Applications

- New residential construction.
- Window replacement and renovation.
- Low-rise building.

## Specifications

- Maximum Sash Height = 2.4m
- Maximum Sash Width = 2.1m
- Maximum Sash Area Size = 2.16m<sup>2</sup>
- Max. Single glazed thickness = 10.5mm
- Double glazed thickness = 18mm IGU
- Maximum Sash weight = 40kg

\* Sizes will vary subject to site conditions and configurations.

# SASHLESS

## Sashless Double Hung Window

Sashless windows are a modern alternative to traditional openable windows.

Sashless windows are double hung system that feature one or two moving panes of counterbalanced glass, without the bulk of a timber or aluminium sash frame surrounding the glass. This provides the best-uninterrupted view in opening window design available today.

The windows open at both the top and bottom with one easy motion to provide perfect rotational ventilation.

Two pane operation

### Key Features

- Sashless systems provide the maximum viewing area possible.
- An opening window system that looks like fixed glass.
- Available in raked and/or arched heads and/or sills.
- Sleek looking window that doesn't detract from the overall aesthetics of the dwelling.
- Counterbalanced system provides an easy to operate/open window. Perfect for aged care facilities.
- Simple mechanisms provide a low or no maintenance requirement.
- Available in two, three and four pane operation

Three pane operation

Horizontal operation

This picture window was manufactured and installed by Accent Aluminium Windows and Doors for Season 1 Episode 1 of *Deadline Design with Shaynna Blaze*, as shown on Foxtel's Lifestyle Channel.

# TRANSCAT

Dog & Cat Door

## Transcat Dog Door

The Transcat Dog Door has a 4 way locking system that allows for locking the door in either direction, both directions or not at all. It allows for easy control by the owner from both the inside & outside. Your dog can come and go without you having to stop what you are doing!

Unsure if your dog will fit? Make a template out of a sheet of cardboard and see if your dog can fit through easily. Your dog should be fully grown.

We can supply and install Transcat Dog Doors to single glazed and double glazed windows and doors. To save money, place your order for the pet door when you order your glass door/window.

## Transcat Cat Door

The Transcat Clear Cat Door is found in homes throughout Australasia. It has been on the market for over 30 years. In that time there have been significant improvements but the door still fits into the same size hole in glass. While it is designed primarily for glass it can also be fitted into other materials.

The Transcat Clear Cat Door is one of the largest cat doors on the market and it is also suitable (as a standard cat door) for miniature dogs. Made from tough, polycarbonate plastic. The Transcat Clear Cat Door can be used as a standard cat door or it can be upgraded to become an electronic cat door, the Transcat Especial Cat Door. This is a unique feature that allows first time cat door purchasers, who may be unsure whether they need an electronic cat door, to purchase the electronic component later and only if they need to.

We can supply and install Transcat Cat Doors to single glazed and double glazed windows and doors. To save money, place your order for the pet door when you order your glass door/window.

Accent Aluminium Windows and Doors were proud to manufacture and install all commercial grade frames for this house in Eaglemont. Built by Bonanni Construction Group.

# SERVICE

**The door is always open with crystal clear, flawless service.**

Accent Aluminium Windows and Doors design products to suit the Australian lifestyle and climate. We pride ourselves on professional business ethics, competitive prices, and commit to delivering on time – demonstrating the highest levels of customer service.

Whether you are a builder, renovator, homeowner or architect, rest assured you have made the correct decision to purchase your windows and doors from Accent Aluminium Windows and Doors.

We will do whatever it takes to bring you satisfaction, exceed your expectations and create a lifelong connection. Encouraging customer feedback is an integral part of our business goals as we seek continual improvement.

Professional, experienced service and attention to detail are what you can expect from the entire team – from the first point of contact to installation and beyond.

# GOING “GREEN”

Here at Accent Aluminium Windows and Doors we believe that we all need to invest in the environment, and we do what we can to support this message. In the past two years we have invested heavily in solar panels for our factory and we are looking at investing further in solar across our business.

Our fleet of cars is also increasing and we have invested in Hybrid vehicles. We see the future of all business fleets heading this way – and as the need arises, we will again be investing in “green” cars.

We are also updating our internal processes to go paperless, which will provide a better experience for our customers.

# ACCENT AND THE COMMUNITY

A focus at Accent is putting back into the local community. We are currently sponsoring several local sporting organisations and are looking to increase that as time goes on.

By nurturing these local groups we hope to create spaces for younger generations to form positive friendship groups and embrace the importance of environments shared with like-minded individuals.

Accent Aluminium Windows and Doors believe that all local businesses have a role to play in investing in our youth and the environment. If all local businesses gave a little back then the local community would be a much better place environmentally and socially.
